

DM Auto Calibration Verification

volumetric view

x,y plot of all measured points

1 point > dE2000 of 1.0

Green dots dE2000 < 1.0
Orange dots dE2000 1.0~2.3
Red dots dE2000 > 2.3

All graphs represent data from the same 1,000 point verification. Leftmost graph is volumetric x,y,Y view of all measurements. Middle graph is standard x,y view of all measurements. Rightmost graph isolates just those measured points over dE2000 of 1.0. In this test the point shown in the rightmost graph measured dE 2000 of 1.0261
